DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-7, drawn to use of network processors and a power line for remotely controlling household appliances, classified in class 340, subclass 310.01.
 - II. Claims 8-21, drawn to use of an IP address, classified in class 340, subclass 539.14
 - III. Claims 22-33, drawn to checking various components in a household appliance and generating fault/repair information, classified in class 340, subclass 825.36.

Applicant can elect either groups I and III or group II.

2. Inventions I and II and III are related as combination and subcombination.

Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because inventions I and III are directed to a household appliance. The subcombination has separate utility such as IP address.

Art Unit: 2636

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Because these inventions are distinct for the reasons given above and the search required for Groups I and III is not required for Group II, restriction for examination purposes as indicated is proper.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
